ST04 BACKENZAHN
STOOL/SIDE TABLE
DESIGN: PHILIPP MAINZER, 1996

The Backenzahn stool can also function as a side or occa-sional table and features a structure of four “post-like” legs that have been joined together to create the atypical volume. Each of the legs has been articulated as a separate element the narrow gap between posts becomes a cruciform element at the top when viewed aerially.

DIMENSIONS

l x w/d x h

10 5/8" x 10 5/8" x 18 1/2"
