

BM5568 Deck Chair

BORGE MOGENSEN

CARL HANSEN & SØN

DESCRIPTION

Børge Mogensen originally designed the BM5568 Deck Chair as a part of his Deck Series in the late 1960s for his private balcony. His human-centric approach to design invites people to interact with nature comfortably and in a multitude of settings. Thanks to wooden slats shaped to follow the natural curves of the body and a generous reclining seat, angled for comfort- and with the option to add a padded fabric cushion for additional support the deck chair encourages optimal relaxation. True to form, the piece is equally as functional. It folds neatly away when not in use and can be hung on the series' corresponding wall mount as a decorative, architectural object in its own right.

BM5568 Deck Chair Dining Chair is crafted in untreated and FSC™-certified teak. The complete series includes the BM4570 Dining Chair and BM3570 Dining Table.
