

9 Low Table

Designed by Patricia Urquiola

The Sengu Table designed by Patricia Urquiola is a monumental piece of furniture that celebrates conviviality through poetic dialogue, emphasizing the union of different materials that express excellent visual tactility.

The oval features a solid wood structure with an oval leg connected by one or two cross-pieces to the two cylindrical legs. The top is in the same wood essence as the structure—natural oak. Combined with a cylindrical column of strong presence available in Carrara marble.

American Walnut:

Carrara Marble

Black Marquina Marble

Carnico rey Marble
