

CH008|LowTable

HANS J. WEGNER

DESCRIPTION

Understated and elegant, Hans J. Wegner's 1954 three-legged low table design has become one of his most sought-after pieces. It's a fine example of Wegner's preference for simple, straightforward and exciting solutions. Ch008 consists of a round tabletop on a frame with three detachable, tapered legs which screw into the surface achieving their slanted outward direction. Like many of Wegner's pieces, it is crafted from solid wood and compliments many other designs- notably his lounge chairs.
