

CH23 Dining Chair

HANS J. WEGNER

CARL HANSEN & SØN

DESCRIPTION

The Ch23 Dining chair was one of the first pieces Hans J. Wegner designed exclusively for Carl Hansen & Son. First introduced in 1950, the Dining chair's ergonomic form and artistic expression would set a new standard for modern furniture design. It is seemingly uncomplicated; however, it incorporates many fine details like the elegant cruciform cover caps in the backrest and double-woven seat. True to Wegner's design, the rear legs are arched slightly, ensuring optimal stability. Ch23 demonstrates Wegner's timelessness of his aesthetic and inscrutable attention to detail.
