

CH25 | EASY CHAIR
HANS J. WEGNER | 1950

It takes a skilled craftsman 10 hours and approximately 400 meters of paper cord to complete weaving one seat and backrest on Wegner's iconic 1950 design. With intricate woven detail visible from all angles, the CH25 easy chair is a striking piece; its clean, simple and distinctive shape highlights the natural materials from which it is crafted, bringing its user a bit closer to nature with every moment spent relaxing in it.
