

## Daze Coffee Table

Designed by Studio Truly Truly, c. 2018

Architectural shapes inspired the Daze collection of coffee tables with futuristic lines by Dutch design studio Truly Truly. Each table is hand-colored, one by one, and constructed from bent and welded sheets of metal. The result is varying intensity, as the paint spills out in different directions in each table, making the design all the more special and unique. With the aid of incredibly advanced technology, artisan craftsmanship adds a note of unpredictability to the precise geometrics of the shapes and materials.
