

E004|Embrace Chair

EOOS

CARL HANSEN & SØN

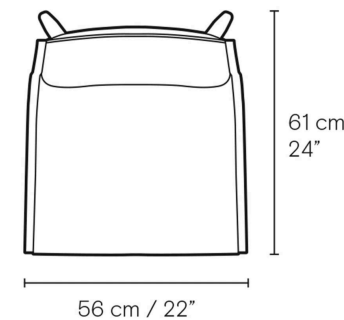

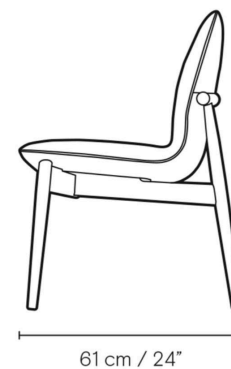

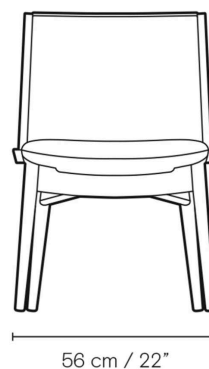

DESCRIPTION

The Embrace Chair is the latest addition to EOOS's Embrace Series, making its debut in 2019 for Carl Hansen & Son. Visually light in its expression, the chair is a more streamlined version than the earlier models. Without armrests and a tighter frame, it fits comfortably with any table and allows for greater freedom of movement. Characteristic of the series, the upholstery is folded - maintaining a relaxed air that contrasts the perfectly shaped wooden frame.

The Embrace Chair, E004, is available in solid oak with various finish options. The upholstery and edging strip may also be configured in choice leathers or fabrics.
