

Fat

DESIGNED BY Patricia Urquiola

The Fat–Sofa Outdoor collection stands out for its rounded, soft and sinuous shapes, echoing the features of the indoor system of the same name. Its fully padded seat is accompanied by a back with a metal frame that supports the original weave, made of dove grey coloured twisted polyethylene fibres. A technique with a graphic effect and macro dimensions that make the design unique, respecting the designer’ s idea of lightness and transparency, and putting the furnishings in an open “dialogue” with the surrounding environment. The Fat–Sofa Outdoor collection consists of an in–line sofa in two sizes and a large relaxing seat. The series is complemented by an armchair with backrest in two heights and different sized ottomans.

Fat Sofa sectional, comes with:
x2 optional cushions (pillow style) OGW48_48
as shown below

Back & seat
cushions:
Lesia 800

Frame:
