

LONGPLANE TABLE RODOLFO DORDONI

DESCRIPTION

The Longplane table by Rodolfo Dordoni has a graphic design and striking aesthetic balance formed with crisp lines and precise proportions. Its long, lean shape incorporates Cassina's trademark fine artisan joinery skills, apparent in the joint between the legs and the massive horizontal beam. The Longplane table is composed of a solid wood base, available in Canaletto walnut and natural oak, stained black or amaranth color. The table comes in three different sizes with varying top options. The fixed version can match the top with the wood base for an all-wood look, metal, or from various marble types. In the extendable version with a wood or metal top, the extensions match the finish of the wood structure, a true fusion of elegance, flexibility, and functionality.

STRUCTURE

Top: in MDF veneered in Canaletto walnut, natural oak or stained black or amaranth; in metal painted pewter with striated effect; in polished or matte marble (only for the non-extendable version)
Legs, Beam and top of the extensions: in Canaletto walnut, natural oak or stained black or amaranth; structure in black anodized aluminum Extensions: in wood
