Description

A seating system comprising of several elements, Michel Effe is an evolution of Michel that stands out for its essential style. This variety in the product range, available in two depths, makes it possible to organise different types of in-line and modular compositions, from formal to casual. From the point of view of style, it features a rigorous design in the base-frame and in the seat with a single cushion. More essential than its predecessors yet no less comfortable, in Michel Effe everything superfluous has been removed.

Technical information

Back and armrest internal frame

tubular steel and steel profiles

Back and armrest internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam, polyester fibre, polyester fibre cover

Seat internal frame

tubular steel and steel profiles, multi-layered wood panel, shaped polyurethane

Seat cushion upholstery

shaped polyurethane of different density, sterilized down, polyester fibre cover
