

# KK43960IMix Chair

## KAARE KLINT

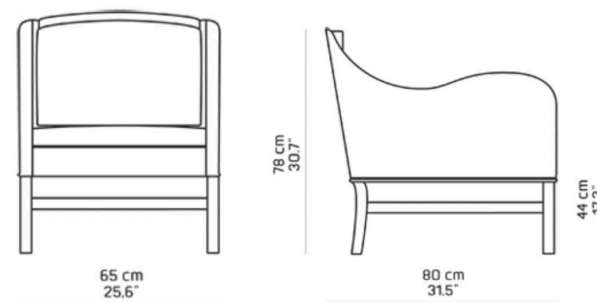

CARL HANSEN & SØN

### DESCRIPTION

Kaare Klint's Mix Chair has earned iconic status among collectors since its unveiling in 1930, admired as much for its elegant, flowing form as its intricate construction concept. The culmination of a sophisticated geometric exercise, the easy chair features a series of convex and concave curves that repeat and mirror one another to form the main frame and armrests. By contrast, the solid wood legs are kept square, with just the back legs gently sloping back to support the chair's slightly reclined profile.
