

OW150 | Daybed OLE WANSCHER

DESCRIPTION

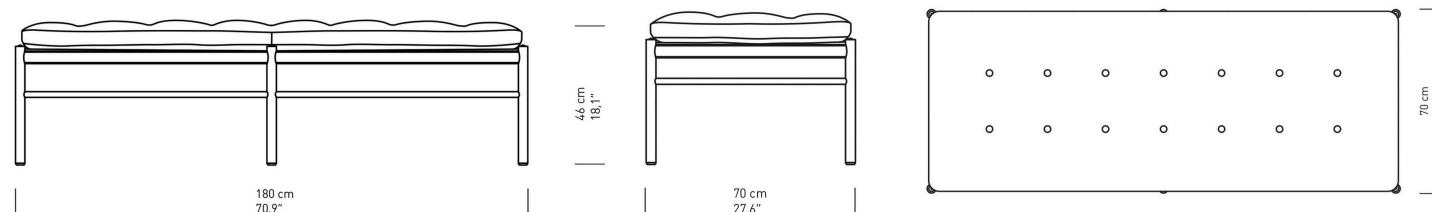

The clean, classic OW150 daybed designed by Olé Wanscher for Carl Hansen & Søn features a single long cushion that appears to float above an angular, solid oak frame, but is in fact supported by a delicate yet strong cotton webbing. Hand-sewn buttons create a simple square pattern that accentuates the daybed's geometric form, while an optional bolster pillow enhances user comfort. As with all of Wanscher's designs, the OW150 daybed is a good example of his approach to furniture design, time-less and elegant, simple forms finished to the very highest standards.
