

TL05 PARDIS
 BED
 DESIGN: PHILIPP MAINZER, 2007

The Pardis Bed ideally combines elegant design with functionality and individuality. Philip Mainzer designed the upholstered bed as a natural extension of e15's "Shiraz" sofa. Like "shiraz," the name "Pardis" is also Persian, an original word for "paradise." The Pardis bed has a headboard available in two heights and three widths. As an additional feature, the headboard is configurable with an extra extension on the right, left-hand, or both sides of the frame.

Technical Details

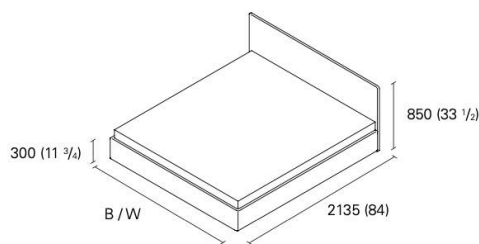

every size is also available with an alternative back height of 1250 mm. an extension on one or both sides of 450 mm respectively is also possible. INSERTION DEPTHS OF 65, 110 and 165 MM for the mattress are possible.
