

PK52AI Student Desk

POUL KJÆRHOLM

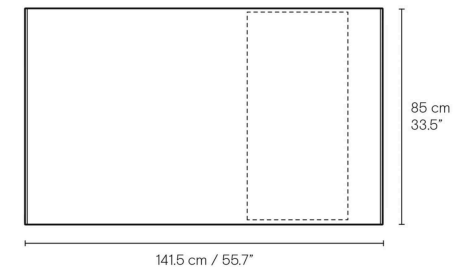

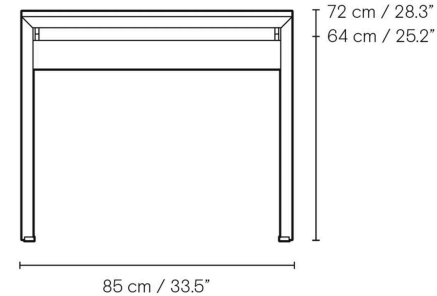

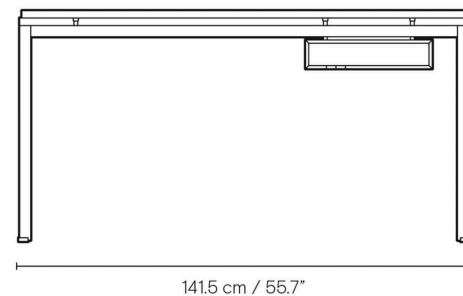

CARL HANSEN & SØN

DESCRIPTION

The PK52 Professor Desk was designed along with the PK52A Student desk in 1955 by Poul Kjærholm for the Royal Danish Academy of Fine Arts. The PK52 Student desk is the smaller of the two. Distinguished by their clean, light expression, the desks helped establish Kjærholm as a one-of-a-kind furniture designer with an intuitive feel for the inherent potential of materials. The design allows for the addition of a drawer, Furthermore, the tabletop is reversible, allowing the user to work on both sides or use one side for work and the other for meals or entertaining.
