A universal object

Wegner designed this stool as an accessory to the **pp19 Papa Bear Chair**. In spite of this intention it naturally accompanies most other easy chairs in PP Møbler's product line. Wegner clearly demonstrated this himself on several occasions presenting the stool along with many other easy chairs. In this way, the stool exemplifies a similar kind of universal design as the **pp35 Tray Table**.

The stool is a strong construction with legs that penetrate and interlock with the solid beech wood frame using traditional joinery and the upholstery is made of horsehair and cotton. It may seem as a trivial product, but it is a genuine piece of exquisite craft.

Stool

pp120

Design: Hans J. Wegner, 1954

pp120 has a wooden frame and comes with an upholstered seat in either fabric or leather. The handles can be specified with a wood type that differs from the legs.

pp120 is the perfect foot stool for pp19, pp129, pp124, pp130, pp521 and pp530 – it is also perfect as an individual stool for alternate seating in a hall or bathroom.
