Description

Three uneven sides are an alternative to the traditional layout. Designed to seat 7, in the formation 3+2+2. The appearance changes depending on the wood or lacquer finish but the pattern of the three-branch structure emerges on the top's surface creating a graphic decoration to contrast with or match the colour of the top.

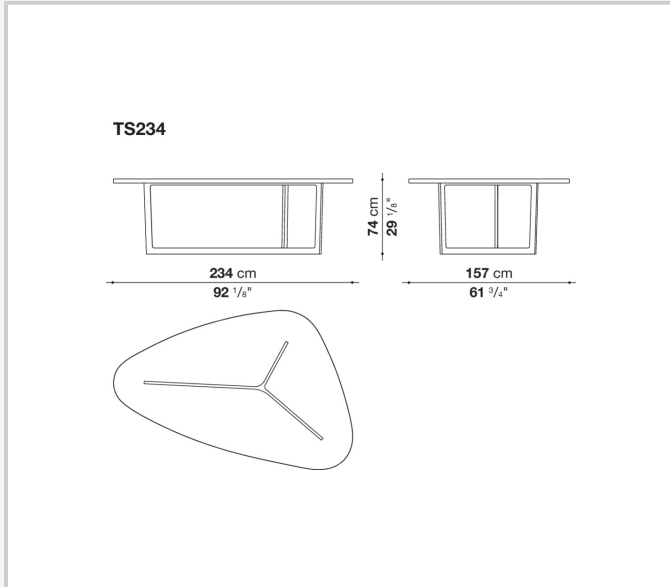

Technical information

Top
veneered light MDF wood fibre panel

Table top insert
MDF wood fibre panel

Support frame
tubular steel
