

SouthBeach

Designer: Christophe Pillet  
Year: 2006

As fascinating as a throne and as protective as a cradle, a seat that combines the concepts of strength and softness in a single piece of furniture. The sleek structure, made from solid beech strips, surrounds and supports the seat and the headrest in birch plywood with fabric upholstery. An important piece, destined to grab attention in whatever space it is placed, whether in the home or in the community.
