Tight Light - Specification Sheet by Piero Lissoni, 2011

Mounting	Wall
Lamp (Bulb) Description	48 TOP LED 3000K 1989lm CRI80 - 2 x 10W
Environment	Indoor - Dry Location
Dimming	Not dimmable
Finish	White
Technical and Product Description	The Tight Light was designed by Piero Lissoni in 2011.

The main body is made out of extruded aluminum and is painted white. The lateral friezes are die cast aluminum and have been rotated to 45° via digital control so it flows with the modern wall light's body. The injection-printed PMMA diffusers has a photo-engraved finish and the attachment is PA66. The junction box is covered with a back plate. The profile is shaped in the letter "T" for "Tight Light".

This designer modern ceiling lamp indirect light and is non-dimmable.

Inspiration behind the Design:

Piero Lissoni, while designing the Long Light and the Tight Light, envisioned the comparison between the smallness and magnificence of the universe. His design is the epitome of purity and minimalism.

Electrical

Voltage	110-240
Switching	NA
IP Rating	IP20

Physical

Construction Material	Aluminum, PMMA
Weight	2.4 lbs
