## Description

---

Tobi-Ishi Outdoor is the outdoor version of the iconic Zen-inspired indoor table of the same name. The name itself is a reference to the polished stones (tobi-ishi) used ornamentally in traditional Japanese gardens. The overhang of the top and the vertical trapezoidal bases set at right angles generate an essential sculptural figure that appears to change shape depending on the point of observation. In the outdoor version, the table is made of cement in two different colours.

## Technical information

---

**Top and legs**

cement (Ultra High Performance Concrete)

**Coupling plate**

galvanized sheet

**Feet**

stainless steel

**Ferrules**

thermoplastic material

## Description

---

The Tobi-Ishi Outdoor small table echoes the Zen-inspired dining tables of the same name that have become true icons of design. The name itself is a reference to the polished stones (tobi-ishi) used ornamentally in traditional Japanese gardens. The overhang of the top and the vertical trapezoidal bases set at right angles generate an essential sculptural figure that appears to change shape depending on the point of observation. Made entirely of cement, Tobi-Ishi Outdoor comes in two colour variants.
