BENCHES

Naoto Fukasawa

Description

The traditional typology of the outdoor bench is revamped with contemporary language. It's an impressive piece that resembles a sculpture. Made of teakwood slats that cover the structure to the ground on both front and back, positioned horizontally on the aluminium structure in an original wave-like arrangement to create curves that are both pleasant and ergonomically functional.

Technical information

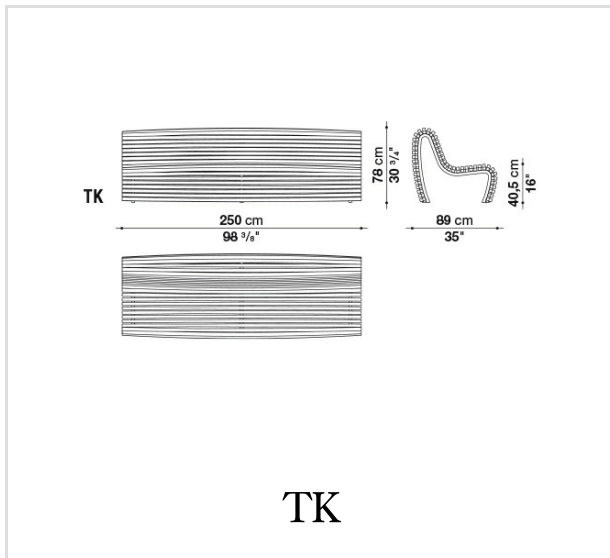

Frame:

anodysed aluminium, solid teakwood

black plastic material

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding.
